PCAP is a 3-year program of support and case management for women that have experienced addiction during pregnancy. We work with women to identify and overcome challenges that they face in their lives, including issues related to addiction treatment, guardianship of children, legal trouble, family planning, housing, training, education and anything else that is important to the woman.

**In order to be eligible for this program the woman must answer yes to the following questions:**

- **Have you been pregnant in the last 2 years?**
- **Did you use alcohol or drugs (including opioid substitution therapy) during that pregnancy?**
- **Do you have a hard time with any of the following issues and can't seem to get any help?**

  - Abuse of any kind
  - Having enough food to eat
  - Making ends meet
  - Legal problems
